This workshop is open to Region.

Workshop Description:

This interactive workshop will help participants understand the economic disparities that exist for women, as well as the incredible economic challenges families face when accessing child care. Through a lens of personal experience, participants will look at the impact of policies that help and hurt women's economic progress. At this workshop, we hope to inspire workers to take action in a campaign that affects women workers and their families.

Workshop Goals:

You will learn to:

- *Identify ways in which women are negatively impacted by the economy.*
- *Understand how women's economic realities and outcomes are the result of political choices motivated by economic agendas.*
- *Understand the way working people can change the direction of our national economy through mobilization, if we build power together.*
- *Articulate how working people can impact public policy choices through mobilization (voting, volunteering and activism) and;*
- *Talk to co-workers, family and friends with a specific recruitment message to get people engaged.*
